An Informed Community is an Empowered Community

Agenda

PRESENTATIONS

1. Kevin James, President, Board of Public Works to discuss the services of Public Works and the Sidewalk Repair Program Draft EIR.
2. Daniel Tamm, Program Marketing Specialist, LASAN, presentation on the services of Sanitation and the issue of 56.11.

LEGISLATIVE

1. The Los Angeles Neighborhood Council Coalition (LANCC) (XXXXXXX Neighborhood Council) requests that the City Council and Mayor replace Cat Packer, head of the Department of Cannabis Regulation, due to poor performance, little to no experience in how to administer a City department, and a lack of transparency during the licensing fiasco and preferring to advocate privately with Councilmembers instead of during public forums. Local activists have also stated that “there is no trust there.” Local media has also performed laboratory tests of samples from illegal shops in Los Angeles that found pesticides linked to hydrogen cyanide and other contaminants listed in Prop 65 which is fueling a public health and safety crisis. The Los Angeles Neighborhood Council Coalition (LANCC) (XXXXXXX Neighborhood Council) requests that the City Council and Mayor reevaluate the current funding of the Department of Cannabis Regulation and fund the department so that it can meet its mission to implement and enforce licensing and implement the social equity program.
