Countdown clock: Highly configurable, seen by who and chimes

Exclamation point - (Point of order might be too specific to NCs)

Reccurent meeting: List of Panelist, hard list.

Convert a meeting into Webinar during a meeting

Can 1 license host launch 2 zoom meeting at the same time on the same computer (Laura Meyers UNNC)

invite received confirmation

See the list of panelists even if camera off

Raise Hand... identify the one raising for the second time

Countdown Timer would mute the speaker

In a meeting, if a co-host could turn off recording and end the meeting

In the invitation sent to the panelist, also include the link that can be shared with attendees to join the meeting

Open Meeting without seeing who is in the virtual room. Question to City Attorney.

If attendees can see where do they stand in the queue when they raise their hand

Distribution of meeting to other NC?

Countdown can't be a screen share function

Having 2 meetings at the same time

Timer would have its own window/tile

alternative host would help

loss of quorum

dropbox sharing via zoom and security

Visibility of attendees......

Print Screen

Possibility to share a link or a document with attendees and panelist via "Chat/Q&A"

make the recording available automatically and public

Disclaimer at the beginning at the meeting

Voice recognition for call-in participants

Template and save existing ID number

Master settings not user Friendly. explain consequences of turning
